

2. Design a C++ program to create an inverted right-angled triangle pattern of asterisks.

**

*

C++ program

```
#include <iostream>
using namespace std;

int main()
{
    for(int a=4;a>=1;a--)
    {
        for(int b=1;b<=a;b++)
        {
            cout<<"*";
        }

        cout<<endl;

    }

    return 0;
}
```
